Four wheel drive [used BMW X5](#) vehicles are the latest must have for the footballer's wives, who all seem to have them in white with 22 inch polished alloys. In towns all over the country you can see these gas guzzling beasts parked outside the school gates just to pick up one child. These children are driven around in ultimate luxury with their rear in car entertainment systems and DVD players. I am not married to a footballer but Big Motoring World do have a used BMW X5 7 seater for sale that would make Cheryl Cole jealous! It is in Metallic White with Full Black Leather and M Sport Kit.
